PROFILE

A highly motivated Web and IT specialist with over six years of experience assisting clients in the private sector launch and maintain their websites and infrastructure. Advanced knowledge of building efficient e-commerce solutions including Bigcommerce, Magento, Salesforce and Woocommerce. Detailed knowledge of managing and planning website builds and assisting clients in maximizing the utility of their online presence. Seeking a position to grow and expand into new and emerging Web/IT technologies.

EXPERIENCE

FEDERAL CONSTRUCTION SUPERINTENDENT

Federal Construction Group | Dec 2019 - Dec 2020

Worked with the Federal Government on Fire Alarm installation at the Point Loma submarine base. Worked alongside Project Managers to install, troubleshoot, and repair new fire Alarm Systems. Obtained Osha 30-Safety certification, 40-hour EM385 certification, and the USACE Construction Quality Management For Contractors certification.

WEB DEVELOPMENT PROJECT MANAGER

V-Digital Services/The Phoenix New Times | Aug 2018 - Oct 2019

Onboarded, prepared, managed, and launched web development projects nationwide. I worked rigorously with my web team to design, build and launch web projects that included small e-commerce stores to large corporate websites for name brands such as [Four Peaks Brewing\(Anheuser-Busch\)](#) and [Wine & Design \(featured on ABC's Shark Tank\)](#)

WEB DEVELOPER

Mt. Baker Vapor | Sept 2017 - April 2018

As the sole Web Developer for a multi-million dollar company, it was my role to maintain the company website and codebase, create new content pages via BigCommerce's stencil CLI file structure, assist other departments on backend website errors, build product pages, and assist in our Salesforce implementation. Was company point of contact for all internal IT questions in relation to company website operations.
